We invite you to cooperation

P.M.S.T.
Transmeble International
60-771 Poznań,
ul. M.Konopnickiej 19/2
www.transmeble.com.pl

P.M.S.T. Transmeble International was established in 70-ties of twentieth century and carried consignments for Polish furniture industry in international and local transport. Nowadays Transmeble Intl. are not involved in carriage of furniture. Speciality of Transmeble Intl. is fair freight forwarding at exhibition grounds in Poznan, Warszawa, Bielsko Biala, Bydgoszcz, Wroclaw and others exhibition centres in Poland and services for Polish exhibitors abroad. Furthermore Transmeble Intl. offers forwarding services for sea, air, and land freights, industrial removals and customs formalities. Transmeble Intl. has professional, technical equipment, skilled and experienced staff. Control over stable and experienced staff in forwarding, handling, montage and dismantling of machines make possible offer of complex service for clients. Knowledge accumulated on every exhibition events bears and avails for services rendered at fairgrounds.

Our potential consists of proper organizational conditions, having a technical base in the field of transshipment equipment, technical equipment as well as trained personnel. Having a stable human team with many years of experience and knowledge of the specifics of both reloading and assembly of machines, equipment and production lines enables us to provide comprehensive service to our clients. The experience gathered at each fair event is fruitful and is used for services performed outside the fairgrounds.

Road forwarding

The origins of road forwarding go back to the fifteenth century, which resulted from the provisions of the law of composition and compulsory road traffic. Since then, road freight has evolved very much. Transmeble International offers road freight forwarding services as a paid form through which it is possible to move goods, machines or people. Our company organizes specialized transport of products with large dimensions throughout Europe.

Sea forwarding

Sea transport is an important link in the offer of our services. Transmeble International has been actively forwarding sea freight for many years. We offer a full range of services including not only the receipt of goods, but also its packaging. We guarantee the service of all goods regardless of their dimensions, as well as the timeliness of each delivery. Our transport is carried out in containers in all directions of the world. We have access to the most modern technologies, and our warehouses are located in the backports facilities. As one of the few on the market, we also offer supervision over the entire logistics mechanism.

Air freight

The fastest way to deliver the product to your destination is air transport. As a company with many years of experience on the market, we organize air transport of cargo and Shipping road / sea / air.

We invite you to cooperation goods. We have been cooperating with many airlines for years, thanks to which you can be sure that you will get a high level service. Air freight in our company includes:

- support for the guardian (agent),
- door to door service including the so-called simplified services,
- own customs warehouses,
- insurance of cargo and goods,
- comprehensive consultancy,
- punctuality of orders.

Customs service

P.M.S.T. Transmeble International Sp.z o.o. offers you customs clearance services. Transmeble International performs all customs operations related to the import and export of goods traded with foreign countries and thus:

- export out of the customs territory of the European Community,
- economic procedures – eg temporary clearance of trade fair exhibits,
- customs transfers (documents T1, T2),
- ATA and TIR carnets,
- security and customs guarantees,
- excise duty in fair parcels,
- Returned goods,
- advice on customs procedures and documentation.

Customs services are performed by experienced employees who have long-standing customs clearance agents supported by the latest generation of software.
